

BEAUTY IS A DAILY DUTY

LA BELLEZZA E' UN IMPEGNO QUOTIDIANO

Una storia di Bellezza. Nel Tempo.

Da sempre esiste una vocazione che ha influenzato, permeato e condotto ogni azione di Ceramica Sant'Agostino: quella rivolta alla **Bellezza**.

Bellezza intesa come senso estetico e pratico, prima e al di là degli altri. Bellezza che ha segnato il nostro percorso e la nostra immagine, partendo dall'essenza e conducendo al frutto stesso di tale Bellezza: il **Prodotto**.

Prodotti unici, che hanno identificato modelli ed inaugurato correnti nella creazione di piastrelle di design; che hanno reso il nostro **Marchio**, nel **Tempo**, sinonimo e garanzia di qualità ed esclusività, affidabilità ed eccezionalità; che si sono fatti orgogliosamente imitare, introducendo evoluzioni stilistiche nel mercato delle superfici ceramiche.

Ma questa vocazione richiede, addirittura esige un impegno altissimo e costante, che non concede distrazioni, o compromessi. Un impegno integrale, che coinvolge ogni singola persona ed ogni singola risorsa della nostra azienda. **Ogni singolo giorno**. Sempre elevatissimo, senza nessun calo di attenzione, e di perseveranza.

Una vocazione, dicevamo, che nasce da ancora più lontano: da un territorio unico, **Ferrara**, distaccato dai grandi centri produttivi ceramici, così da essere, per così dire, puro, neutro, libero, "fuori dal coro". Ed una città, Ferrara, appunto, capitale di una grande storia di potere, arte e cultura: quella del **Ducato Estense**, patria dell'Umanesimo e soprattutto del **Rinascimento Italiano**, patria di grandi artisti, e scienziati, e intellettuali, da Mantegna e Tiziano a Boiardo, Ariosto e Tasso, a Copernico e Bembo, grazie a mecenati come il Duca Ercole I d'Este.

Il Tempo ha condotto questo patrimonio e questa vocazione dedita al Bello fino ad oggi, e fino a noi, eredi gelosi di una tradizione, che, sin dall'epoca della grande Ferrara Rinascimentale, è stata continuamente proiettata all'innovazione, tesa, come era, alla ricerca della Bellezza assoluta, perfetta, eterna perché inattaccabile persino dal Tempo, lui sì, invece, vero grande testimone e custode incaricato di conservare per sempre il suo valore storico, artistico, culturale, sociale: in una parola, umano.

A story of beauty. Over Time.

There has always been a vocation that has influenced, permeated and driven every action behind Ceramica Sant'Agostino: a calling for **Beauty**.

Beauty in aesthetic and practical terms, first and foremost. Beauty that has distinguished our journey and our image, starting with the essence and leading to the very fruit of this Beauty: the **Product**.

One-of-a-kind products, that have identified models and begun trends in the creation of designer tiles; which have, over **Time**, made our **Trademark** synonymous with and a guarantee of quality and exclusivity, reliability and exceptionalism; that have been proudly imitated, introducing stylistic evolutions in the market of ceramic surfaces.

However, this vocation not only requires, it demands, elevated and constant commitment, that does not admit distractions or compromises. An integral commitment that involves every single person and every single resource in our company. **Every single day**. Our attention and perseverance are always high, they never wane.

A vocation, as we were saying, that stems from much earlier: from a unique place, **Ferrara**, a distance from major ceramic production centres, making it, one might say, pure, neutral, free, "discordant". And a city, namely Ferrara, the capital of a great history of power, art and culture: the **Estense Duchy**, homeland of Humanism and especially the Italian **Renaissance**, homeland of great artists and scientists, and intellectuals, from Mantegna and Tiziano to Boiardo, Ariosto and Tasso, to Copernicus and Bembo, thanks to patrons such as Ercole I d'Este, Duke of Ferrara. Time has led this heritage and vocation dedicated to Beauty to the present date and to us, the protective heirs of a tradition which, since the great Ferrara of the Renaissance, has continuously striven towards innovation, in the pursuit of absolute, perfect, eternal Beauty that is impervious even to Time. Time, who is, on the other hand, the true great witness and guardian responsible for forever preserving its historical, artistic, cultural, social value: in a word, human.

**Per noi la Bellezza è da sempre un grande impegno quotidiano.
Anche a Cersaie 2017.**

Interpretare la tradizione in chiave contemporanea attraverso la linea di cementine in gres porcellanato PATCHWORK; cucire su misura gli ambienti con le raffinate sensazioni tessili della collezione FINEART; arricchire lo spazio con le ispirazioni calde e fruttate o dipingere gli interior con la creatività artistica dei legni ceramici BARKWOOD e COLORART; esaltare l'essenzialità della materia nella ricca primitività dell'argilla (collezione RITUAL), nella forza elegante della pietra (collezione HIGHSTONE) o nella pura meraviglia del marmo (collezione PURE MARBLE); fino a decorare il mondo del bagno con la sofisticata reminiscenza stilistica del terrazzo veneziano anche a parete o l'esplosività grafica e cromatica di infinite varianti di mattoncino grazie alle due collezioni da rivestimento NEWDOT e DECORLINE.

Sono queste le **9 collezioni** che, arricchite dalla Grande Bellezza delle piastrelle nei formati 90x180 e 120x120 realizzate con l'adozione delle tecnologie più innovative ed avanzate, rappresentano la nostra proposta ceramica all'edizione 2017 di Cersaie. Sono state pensate per soddisfare ogni tipo di esigenza estetica e tecnica, ed essere in grado di incontrare tutti i trend del design contemporaneo - fra suggestioni minimali e richiami alla classicità - insieme a tutte le richieste della progettazione e dell'edilizia - fra potenzialità e funzionalità applicative in ogni tipo di ambiente, residenziale o commerciale, privato o pubblico, ed eclettismo di gusti e stili, in modo da poter vivere la **Bellezza nel quotidiano di ciascuno di noi, in qualunque spazio ed in qualunque momento del giorno.**

**For us, Beauty has always been a great daily duty.
And so it is at Cersaie 2017.**

Interpreting tradition with a contemporary twist through the PATCHWORK porcelain stoneware cementine line; sewing, to measure, rooms with the refined textile sensations of the FINEART collection; enriching a space with warm and fruity inspirations or painting interiors with the artistic creativity of BARKWOOD and COLORART ceramic woods; bringing out the essential quality of matter through the rich primitiveness of clay (RITUAL collection), through the elegant force of stone (HIGHSTONE collection) or through the pure marvel of marble (PURE MARBLE collection); up to decorating the world of the bathroom with the sophisticated stylistic reminiscence of a Venetian terrace, including on the wall, or with the graphic and chromatic explosivity of countless variations of brick thanks to the two NEWDOT and DECORLINE tiling collections.

These are the **9 collections** which, enriched by the Great Beauty of the tiles in the 90x180 and 120x120 formats, produced by adopting more innovative and advanced technologies, represent our ceramic offer at the 2017 edition of Cersaie. They have been created to satisfy every aesthetic and technical demand, to meet the trends in contemporary design - all the while offering charming minimal features and classical allusions - along with all of the requests pertaining to design and construction - from applicational potential and function in every type of setting, whether residential or commercial, private or public, and eclecticism of tastes and styles, to experience **Beauty in our everyday lives, in any setting and at any time of the day.**

FINEART

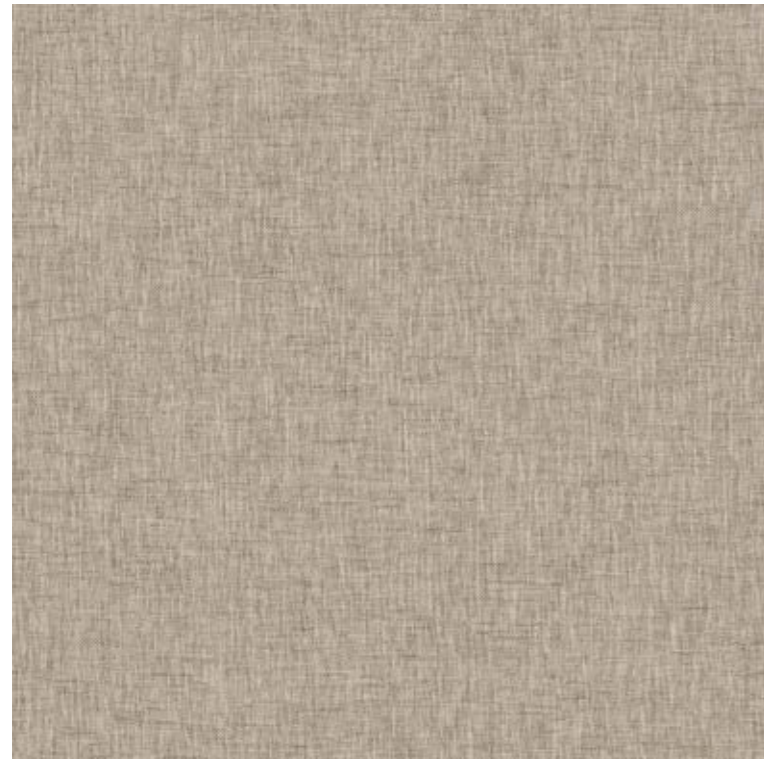

L'ARTE RAFFINATA DI TESSERE LA CERAMICA

4 The refined art of weaving ceramics

La "sartoria" di Ceramica Sant'Agostino - azienda precorritrice e leader di questa attuale tendenza nelle superfici ceramiche attraverso le creazioni DIGITALART e TAILORART, riferimenti unici ed originali già presenti sul mercato - si completa con FINEART, l'ennesima lettura innovativa del tessuto in gres porcellanato, realizzato con stampa digitale di ultimissima generazione e leggera struttura tridimensionale. La trama fine, le tinte tenui e delicatamente melange, la proposta di formati anche piccoli come il 20x20, le decorazioni sofisticate e misurate, conferiscono a questa collezione un sapore elegante e rassicurante, dal design raffinato e versatile che si "cuce su misura" a qualsiasi spazio domestico, oltre che a tutte le soluzioni in ambito piccolo commerciale, fra cui, in particolare, hotellerie e retail.

The "tailoring" of Ceramica Sant'Agostino - the pioneering company and leader of this current trend in ceramic surfaces through the unique and original collections DIGITALART and TAILORART already on the market - is completed with FINEART, one more innovative fabric Porcelain collection, made with the ultimate generation of digital printing technique and a light three-dimensional structure. The fine texture, the soft tones and delicate melange, the small sizes such as the 20x20, the sophisticated and moderate decorations, give this collection an elegant and reassuring flavor, with a sophisticated and versatile design that is tailor-made to any domestic space, as well as to all the solutions in the small business area, including, in particular, hotellerie and retail.

Piastrelle con grafica a linee direzionate

Tiles with graphic directional lines

Fliesen mit grafischen Richtungslinien

Carreaux décorés avec lignes directionnelles

Плитка с рисунком в виде линий определенного направления

Caratterizzata dal tipico design che richiama l'armatura di un tappeto intrecciato a righe e a quadri in cotone, ogni singola piastrella di FINEART presenta un verso, che va rispettato e seguito nelle operazioni di posa di una serie di piastrelle, sia a pavimento sia a parete, per ottenere la corretta resa estetica ed il miglior effetto possibile d'insieme.

Characterized by the typical design that incorporates the armature of a entwined cotton lines and squares carpet, any single FINEART tile presents a direction, which must be respected and followed during the tiling, both on the floor wall, to get the best possible aesthetic result.

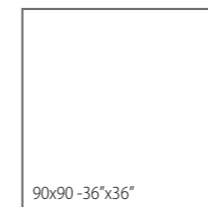

Durch das typische Design gekennzeichnet, das an die Bindung eines Teppichs mit eingeflochtenen Baumwollstreifen erinnert, gibt jede einzelne FINEART Fliese eine bestimmte Richtung vor, die bei der Verlegung einer Fliesenreihe am Boden oder an der Wand beachtet und befolgt werden muss, um die korrekte ästhetische Wirkung und den bestmöglichen Gesamteffekt zu erzielen.

Il se caractérise par la conception typique qui rappelle l'armure d'un tapis tissé avec lignes et toiles de coton. Chaque carreau de FINEART présente un sens de pose, qui doit être respecté et suivi dans les opérations de pose des carreaux, tant au sol ainsi qu'au mur, afin d'obtenir l'esthétique optimale et le meilleur effet de l'ensemble.

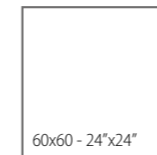

Каждая отдельная плитка коллекции FINEART, характеризующаяся типичным дизайном, напоминающим переплетение хлопкового полотна в полосу, должна быть повернута определенным образом при укладке, как при облицовке полов, так и при облицовке стен, для получения правильного результата и наилучшего внешнего вида композиции.

PURE MARBLE

L'ARTE DI SVELARE LA PUREZZA DEL MARMO

42 The art of elevating grace and vigour in stone

Una nuova selezione di marmi, dedicata al mondo dell'architettura d'interni, va ad arricchire la "marmoristeria" di lastre in gres porcellanato firmata Ceramica Sant'Agostino. PURE MARBLE rappresenta un omaggio alla purezza estetica propria dei modelli più belli e caratteristici di alcuni dei marmi qualitativamente migliori e più ricercati dai progettisti di tutto il mondo: il Bianco di Covelano, il Côte d'Azur, l'Onice Bianco ed il Palissandro Bluette. La gamma proposta per ogni tipo di marmo si sviluppa dal grande formato 90x180 in versione Krystal - ossia lucida "a specchio" - fino al mattoncino 7x30 nelle finiture Naturale e Krystal, arricchendosi di una serie di mosaici montati su rete e di una decorazione a palladiana stampata, grazie alla tecnologia digitale di ultimissima generazione,

su una piastrella in 90x90 cm con superficie Krystal. La presenza ulteriore di pezzi speciali come battiscopa, gradone, angolari e quarter round offre la possibilità di progettare ecletticamente soluzioni applicative complete per ambienti ad uso privato e pubblico, residenziale e commerciale.

A new selection of marble, dedicated to the world of the interior architecture, enriches the "marble selection" in porcelain stoneware tiles designed by Ceramica Sant'Agostino. PURE MARBLE is a homage to the aesthetic purity of the most beautiful and characteristic models of some of the finest and most wanted marbles around the world: White Covelano, Côte d'Azur, White Onice and Palissandro Bluette. The range offered for every type of marble spreads from the 90x180 in Krystal - or "shiny" mirror - version to the 7x30 brick size in Natural and Krystal finishes, enriched with a series of mosaics mounted on the net and a palladium decoration printed with the latest generation of digital technology, on a 90x90 cm Krystal surface. The further presence of special pieces such as skirting, steps and quarter

round offers the ability to design eclectically complete solutions for private, public, residential and commercial environments.

BARKWOOD

L'ARTE DI MUOVERE IL CALORE DI UN AMBIENTE

54 The art of moving warmth in a room

BARKWOOD, un gres porcellanato che richiama essenze fruttate di legno, dalle cadenze cromatiche calde o neutre e contemporanee, e dall'equilibrato movimento della grafica e dalla leggera struttura di superficie, è una collezione che si sviluppa su assi con tre differenti misure, fra cui, assoluta novità di gamma, quella in 180 cm di lunghezza, ideale soprattutto per rivestire il pavimento di grandi spazi, sia domestici sia commerciali e pubblici.

BARKWOOD, a porcelain tile that recalls the fruity essences of wood, with its warm chromatic or neutral shades, the smooth motion of the graphics, the light surface texture. A collection that develops on planks with three different measures, including the brand new 180 cm size, ideal for covering the floor of large spaces, both domestic and commercial.

COLORART

L'ARTE DI DARE VITA AL LEGNO CERAMICO

62 The art of giving life to ceramic wood

Con COLORART, la "falegnameria" di Ceramica Sant'Agostino diventa sempre più artistica, arricchendosi con quest'ultima interpretazione fortemente creativa dell'effetto legno in gres porcellanato, concepita nel solco del successo delle precedenti BLENDART e PICTART. Il "legno ceramico" viene qui bruciato e verniciato con colori che fanno vivere gli elementi naturali, dalla luce al carbone, dall'acqua alla terra, trasportandoli all'interno di suggestivi ambienti residenziali ma, specialmente, commerciali e contract.

With COLORART, the "carpentry" of Ceramica Sant'Agostino becomes ever more artistic with this highly creative interpretation of the wood effect in porcelain, conceived in the wake of the success of the previous BLENDART and PICTART collections. The "ceramic wood" is burnt and painted with colours that enliven the natural elements, from light to coal, from water to earth, transporting them inside suggestive residential environments, but especially commercial and contract.

PATCHWORK è la linea di piastrelle in gres porcellanato nel formato 20x20 che Ceramica Sant'Agostino ha lanciato per decorare ambienti residenziali o spazi commerciali, a parete o pavimento, attraverso stilemi grafici ed abbinamenti cromatici che si rifanno, reinterpretandone la tradizione in chiave contemporanea, alle cementine, caratteristiche degli interni in stile art déco e liberty degli inizi del ventesimo secolo. Si suddivide in tre serie distinte: PATCHWORK BLACK&WHITE, PATCHWORK CLASSIC e PATCHWORK COLORS, ognuna caratterizzata da basi di colore e soggetti decorativi differenti, che spaziano fra suggestioni geometriche o floreali, forme essenziali o complesse, bilanciamenti visivi di vuoti

e di pieni, motivi da posare singolarmente o all'interno di composizioni multiple. Un programma talmente ricco e completo da incontrare ogni gusto estetico ed ogni esigenza di arredo, per spazi come il bagno, la cucina, la zona giorno, fino a locali pubblici quali, ad esempio, caffetterie, ristoranti e negozi. Con PATCHWORK si attualizza ulteriormente quel recupero della tradizione che si è fatto ormai "tendenza" di stile.

PATCHWORK is the porcelain collection in size 20x20 that Ceramica Sant'Agostino has launched to decorate residential or commercial spaces, for walls or floors. The graphic styling and colour matching re-interpret the Cementine typical of Art Deco and Liberty style interiors of the early twentieth century, merging tradition and contemporary style. It is divided into three different series: PATCHWORK BLACK&WHITE, PATCHWORK CLASSIC and PATCHWORK COLORS, each featuring different bases of colour and different decorative subjects, ranging from geometric or floral suggestions, essential or complex shapes, visual and empty balance, patterns to be installed individually or within multiple compositions. A

program so rich and complete that it meets every aesthetic taste and every need for furniture, for spaces such as bathroom, kitchen, living area, to public places such as cafes, restaurants and shops. PATCHWORK further updates the restoration of tradition that has become a "trend" of style.

Il colore come esaltazione dell'ornamento. Il colore come movimento visivo e suggestione materica, che gioca con disegni di luce e nitidezze cromatiche tra fiori, greche, fregi e bordure, quintessenza di una contemporanea art déco.

Colour as an ornament's exaltation. Colour as visual movement and material suggestion, which plays with patterns of light and chromatic sharpness between flowers, frets, friezes and borders, the quintessence of contemporary Art Deco.

Tutta la naturalezza estetica della tradizione, quando le cementine si realizzavano a mano versando un impasto di cemento colorato con pigmenti naturali e sabbia in stampi decorativi, così da ottenere, solitamente, tinte basate sui toni del grigio e del marrone, si associa all'innovazione tecnologica del gres porcellanato, per produrre mattonelle in linea con la misura del decor moderno più raffinato insieme alla più estesa versatilità di applicazioni e le più elevate prestazioni in termini di qualità e durata.

All the aesthetic naturalness of the tradition, when the Cementine were made by hand pouring a mixture of coloured cement with natural pigments and sand in decorative molds, to obtain, usually, colours based on gray and brown tones, is associated with innovation of the porcelain stoneware technology to produce tile with the measure of the most refined modern decor along with the widest variety of applications and the highest performance in terms of quality and durability.
